Provides both shared and private shuttle service from the airports to the cruise port for just \$60 roundtrip per person from Hobby and \$70 per person from Intercontinental.

Taxi fare round-trip from the airport to the Galveston cruise terminal can **cost upwards of \$250-300 from Bush Intercontinental Airport and \$150-200 from Hobby Airport.** (Rates vary depending on traffic.) That's on the expensive side, but remember that usually up to four or five passengers can ride for that price. That makes the cost cheaper per person than the cruise line shuttles. Plus, with a taxi you don't have to reserve ahead and you can leave whenever you are ready, instead of waiting on a shuttle to fill up.

GET ME- Rideshare

These rideshare services may be unfamiliar to some, but can offer a cheaper and more convenient way to get to the cruise port. You simply download the app to your phone, and request a ride. A driver will then pick you up in their personal car. They are also allowed to pick up from Houston airports. The company estimates that will cost between \$90-145 for a ride from Houston Hobby to the cruise port, and \$145-200 from Houston Intercontinental.
